Juniors				
Name	Style	Average	Handicap Average	
Jack Holderness	BB	348	185	533

As Jack is the only junior at present posting results he is included in Division 3

The average scores are now based on 36 targets

36 x 24 = 864
 36 x 20 = 720
 36 x 16 = 576

The handicap system is designed to compensate for the bow style and the capability of the member. The initial handicap is based on the system used for the SW Crown to compensate for differences in Bow Style.

Bow Style Handicap (SW Crown) 40 targets				36
American Flat Bow	AFB	Gents	259	233
		Ladies	368	331
Bare Bow	BB	Gents	205	185

		Ladies	311	280
Thumb Draw	TD	Gents	255	230
		Ladies	364	328
Traditional Crossbow	TXB	Gents	190	171
		Ladies	280	252
Unlimited	UL	Gents	53	48
		Ladies	103	93
Cross Bow	XB	Gents	53	48
		Ladies	103	93

To give more people a chance to win the group is split into four divisions, and progress upwards as their average score progresses.

The handicap is calculated from the average of the best six handicapped scores recorded for each archer within the last 12 months, and this value will be used to decide on the division.

Within the division the winning archer will have the highest handicapped score. This is the adjusted score

Maximum score for Big Game on 36 targets is $24 * 36 = 864$ so anyone with an average handicapped score over 864 will have their handicap reduced to give a total of 864, this reduced handicap will be used in

If an archer changes bow style then the handicap will be adjusted using the difference in values for the two style handicaps.
